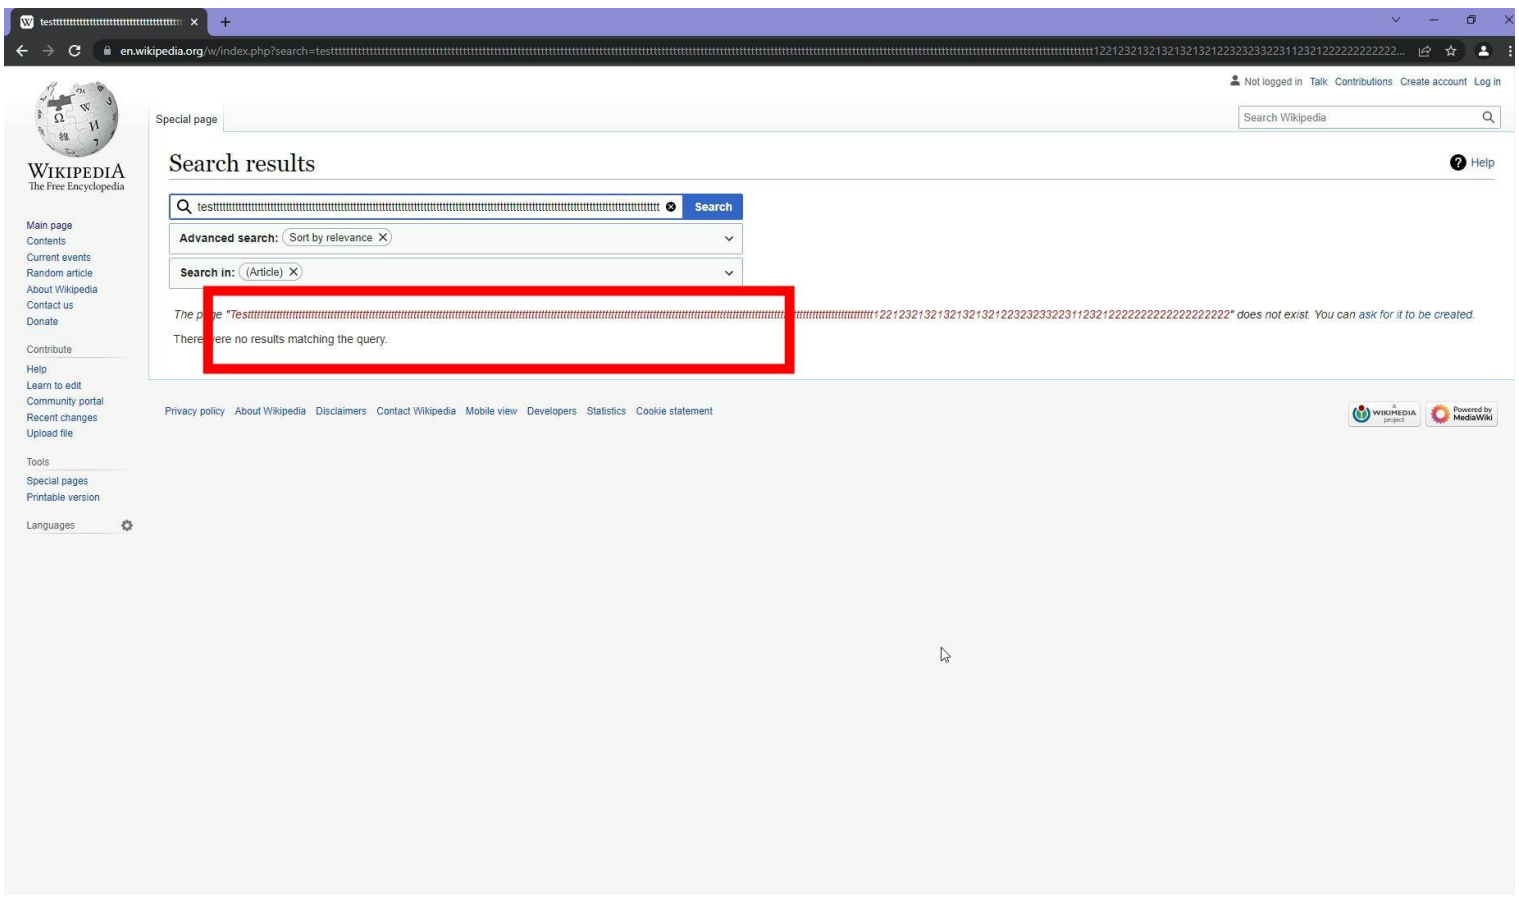
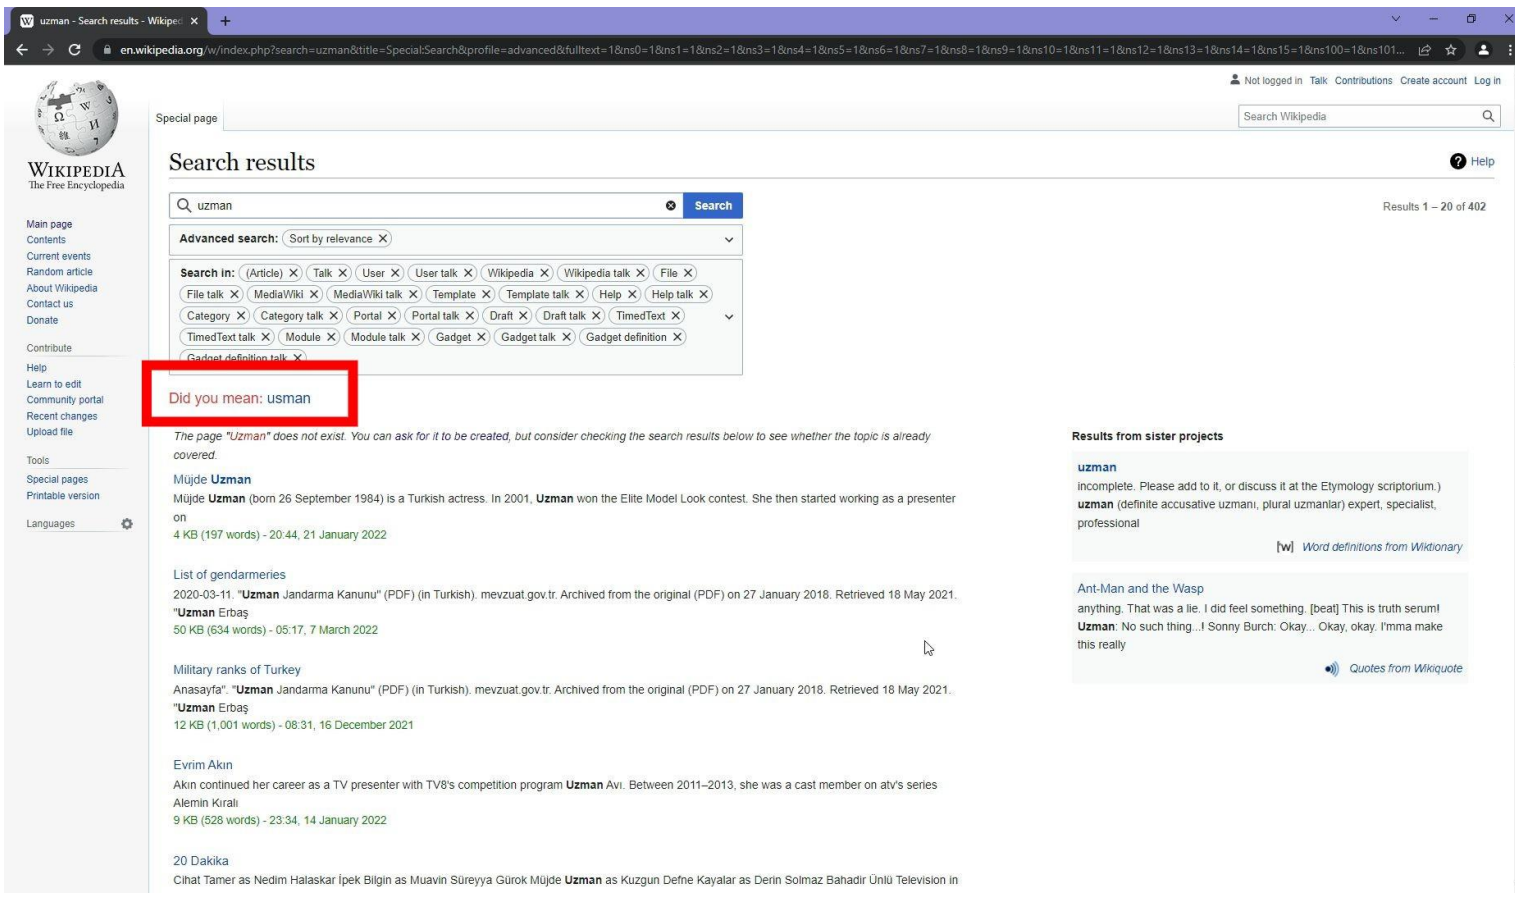
00:02:53 | Screenshot • Positive



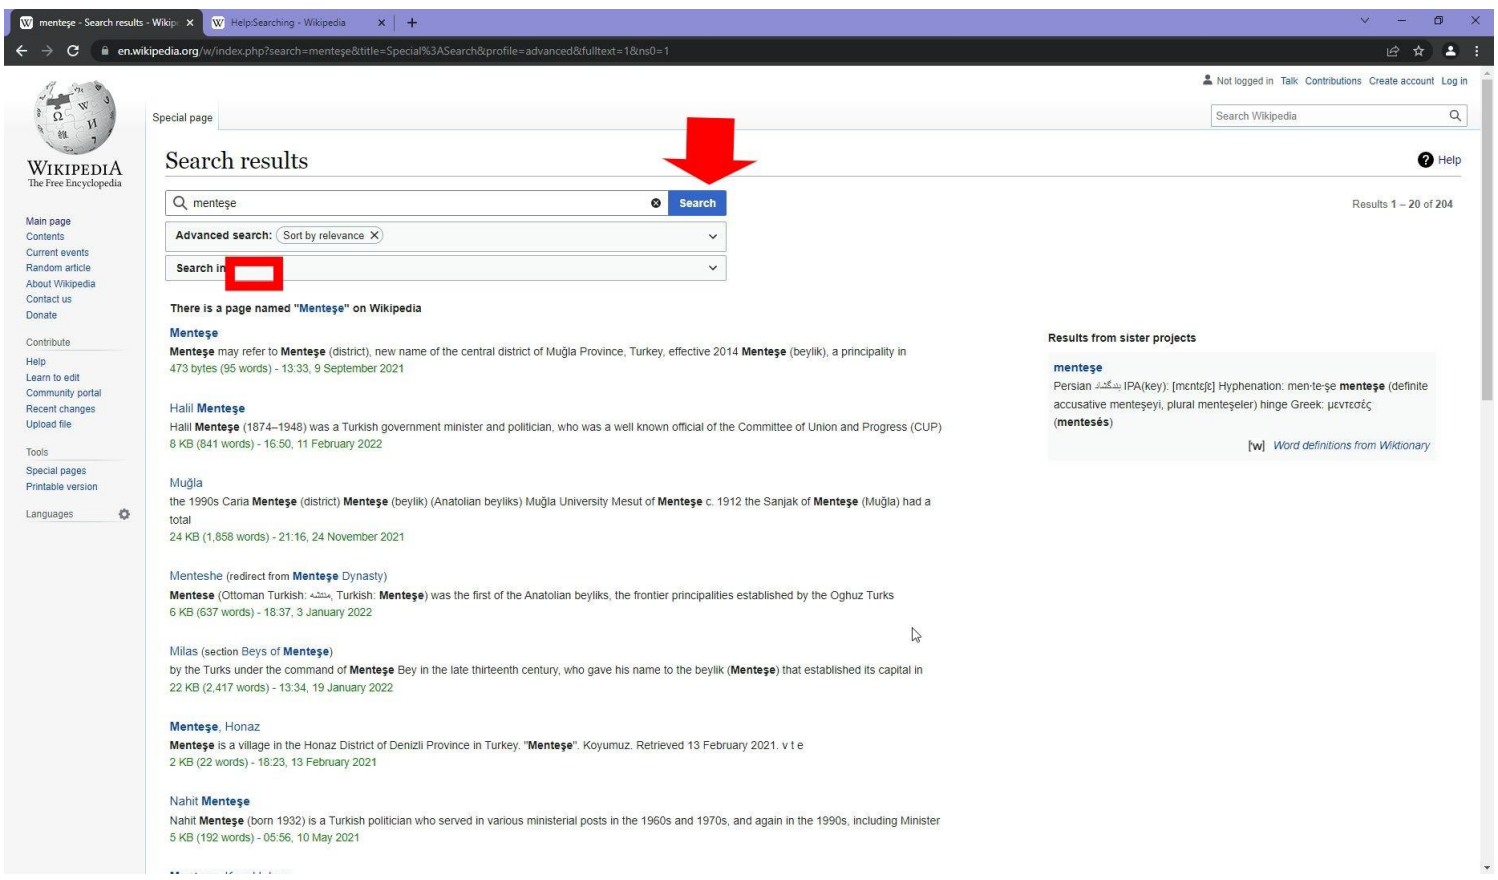
en.wikipedia.org/w/index.php?search=testttttttt

00:16:02 | Screenshot • Problem



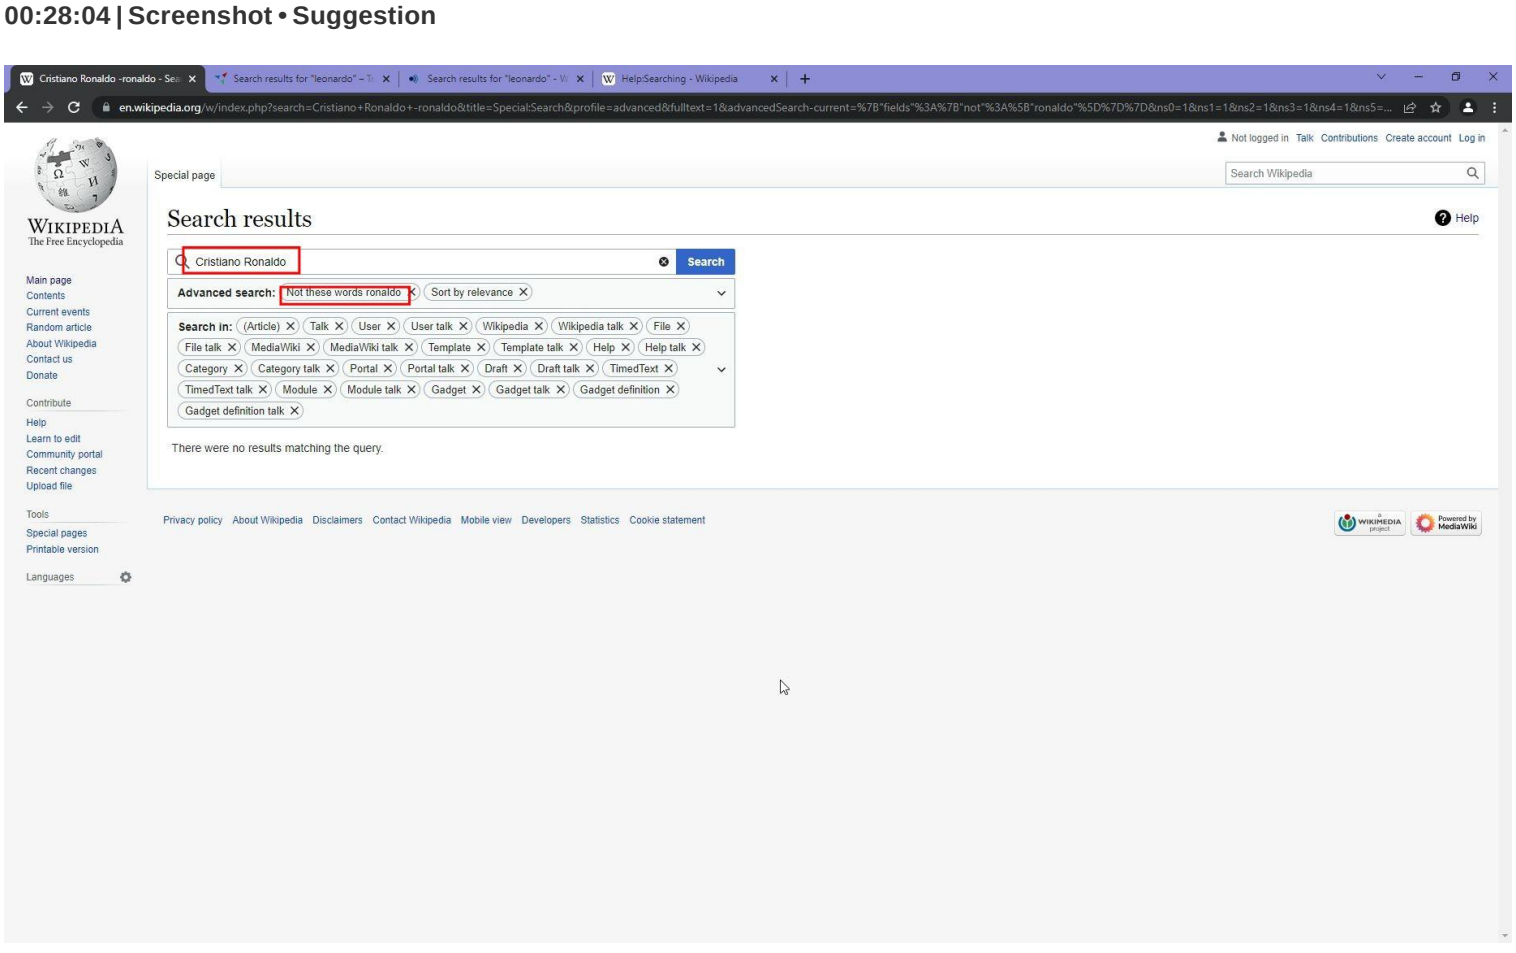
There is no need “did you mean” here. I selected all search in options so ı have actually results.

00:20:02 | Screenshot • Suggestion



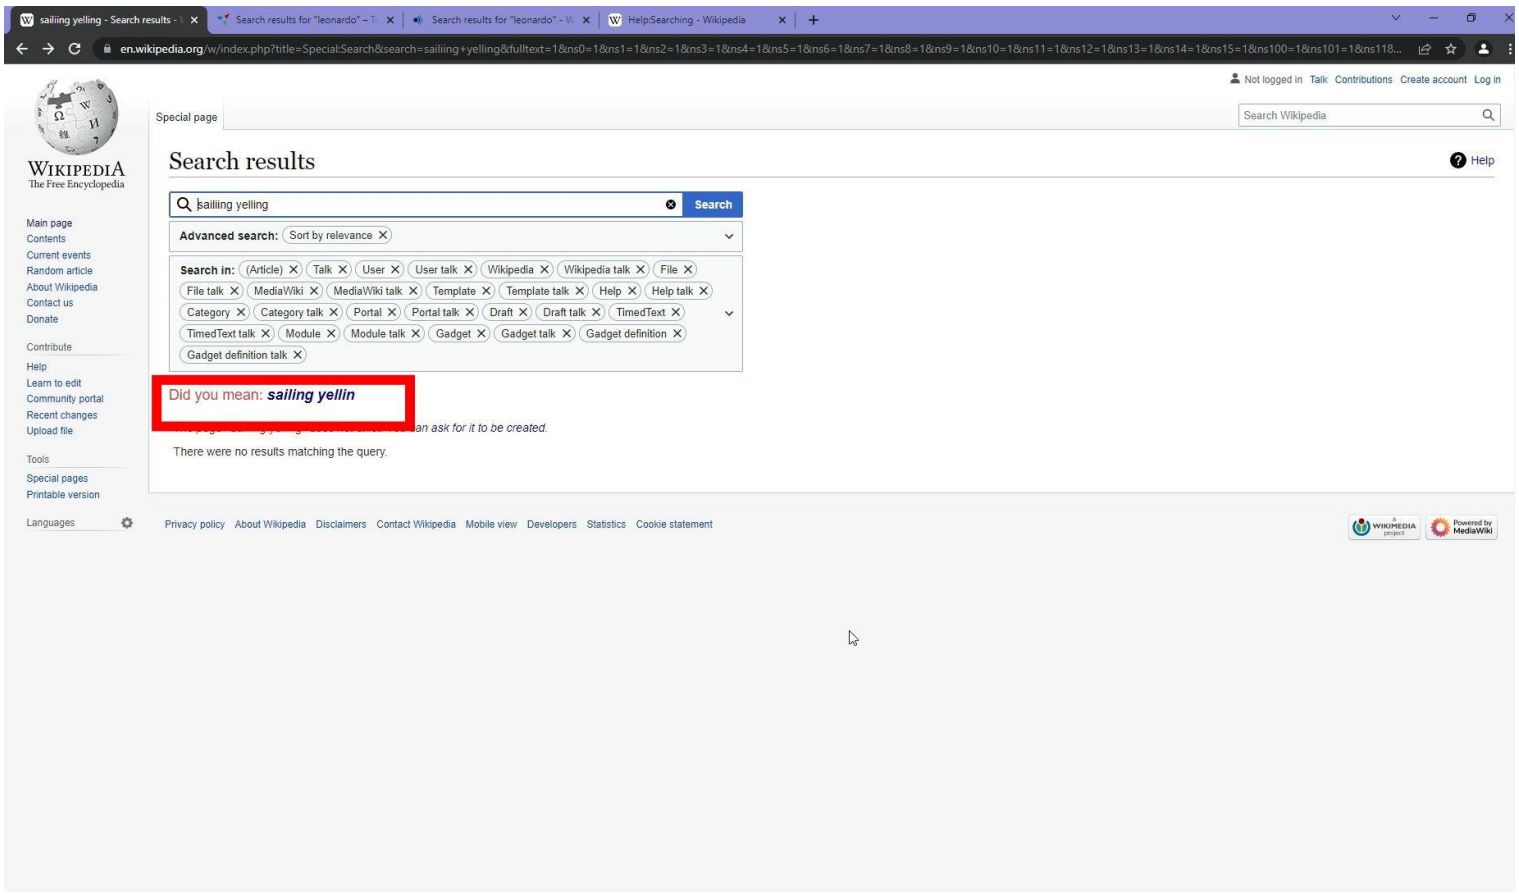
When ı search without “article” it’s searching with article. ı can't delete it.

00:28:04 | Screenshot • Suggestion



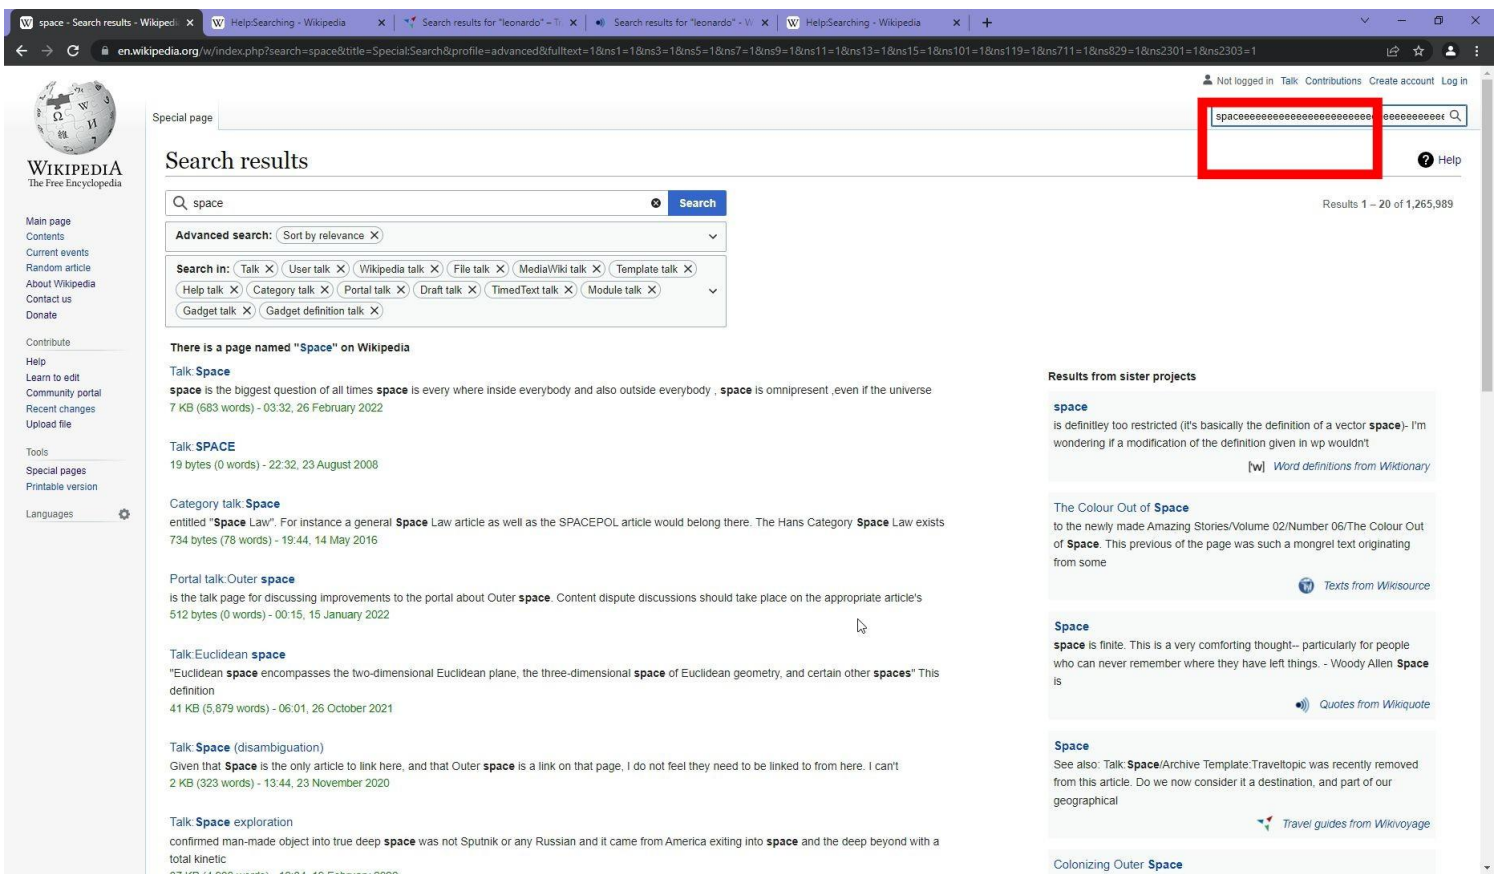
When ı banned “ronaldo” text there were no results matching the query but ı think it should search only “Cristiano” text. It bans all search word.

00:31:07 | Screenshot • Comment



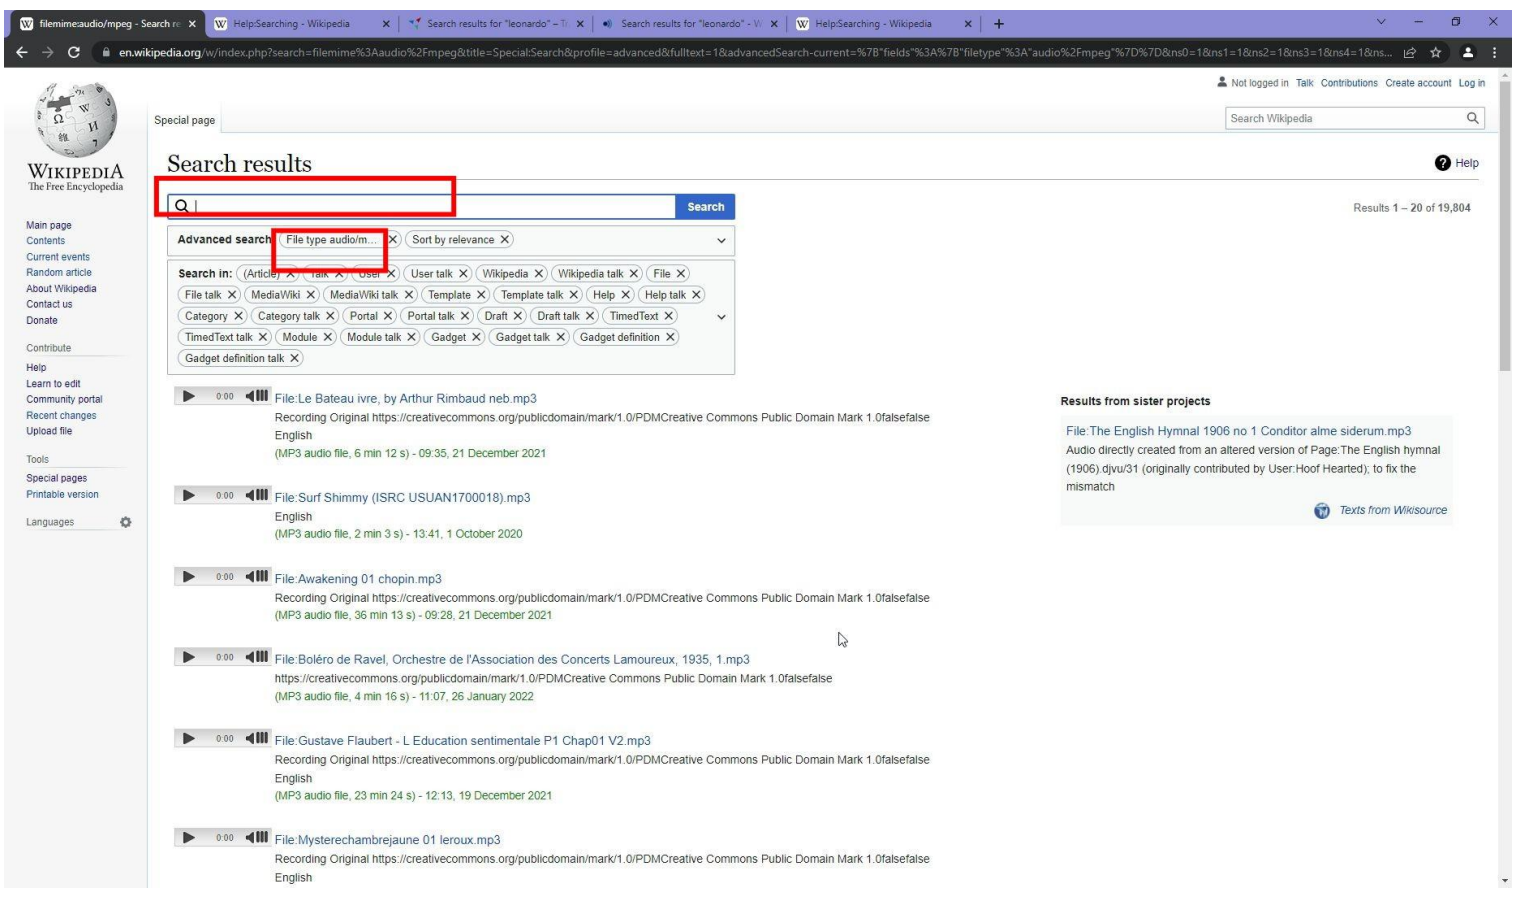
When I click the did you mean text, it's removing all "Search In" filtering.

00:39:26 | Screenshot • Suggestion



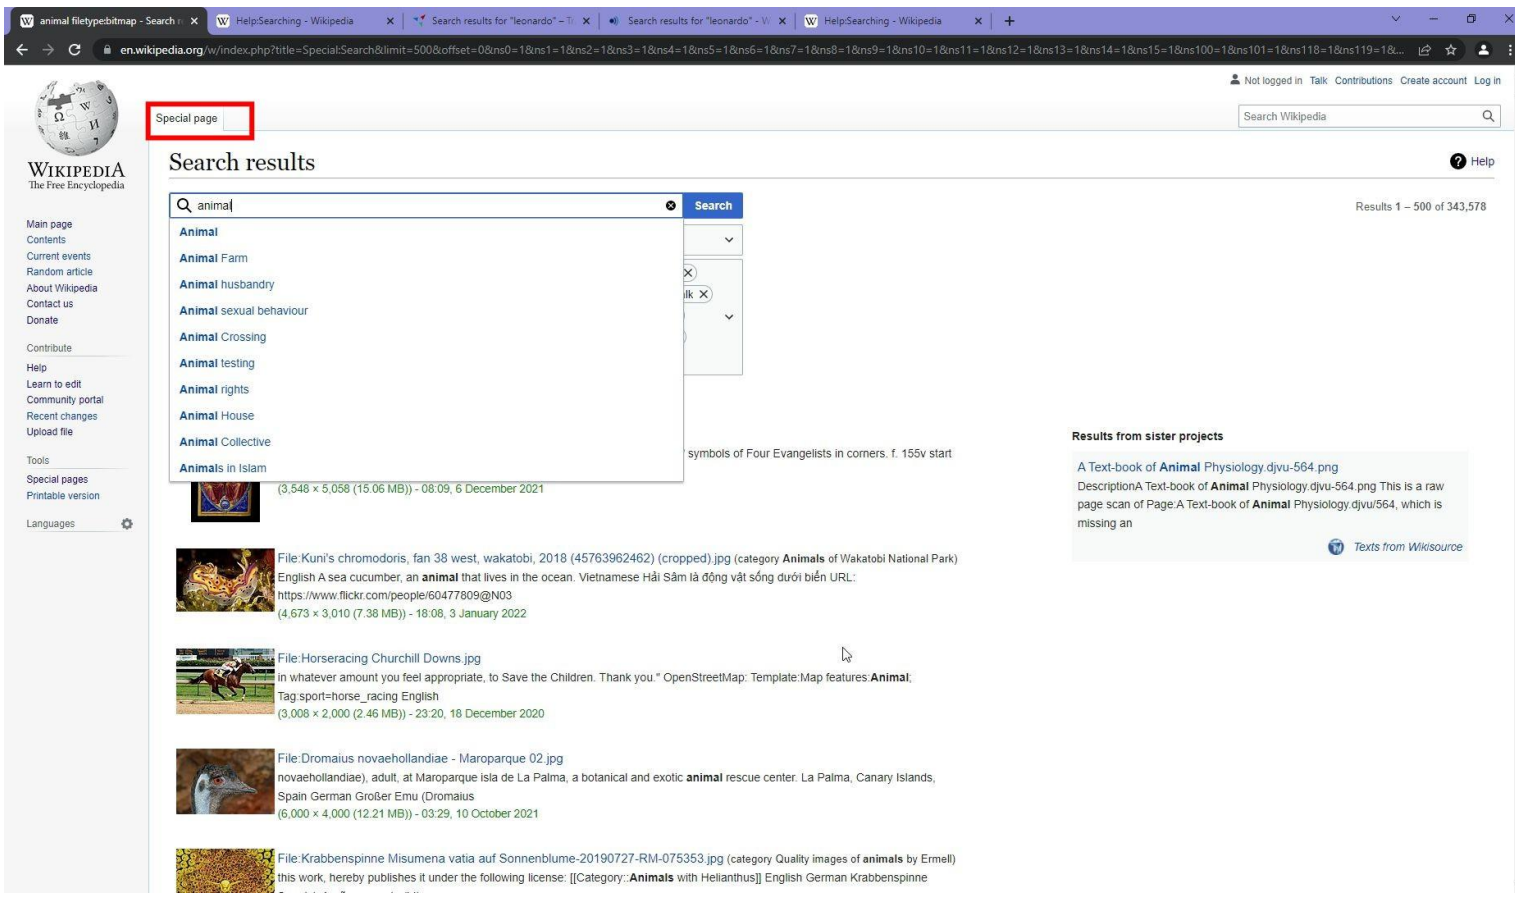
There is no text character limit in quick search bar.
The quick search bar should be character limited like the main search bar.

00:45:12 | Screenshot • Comment



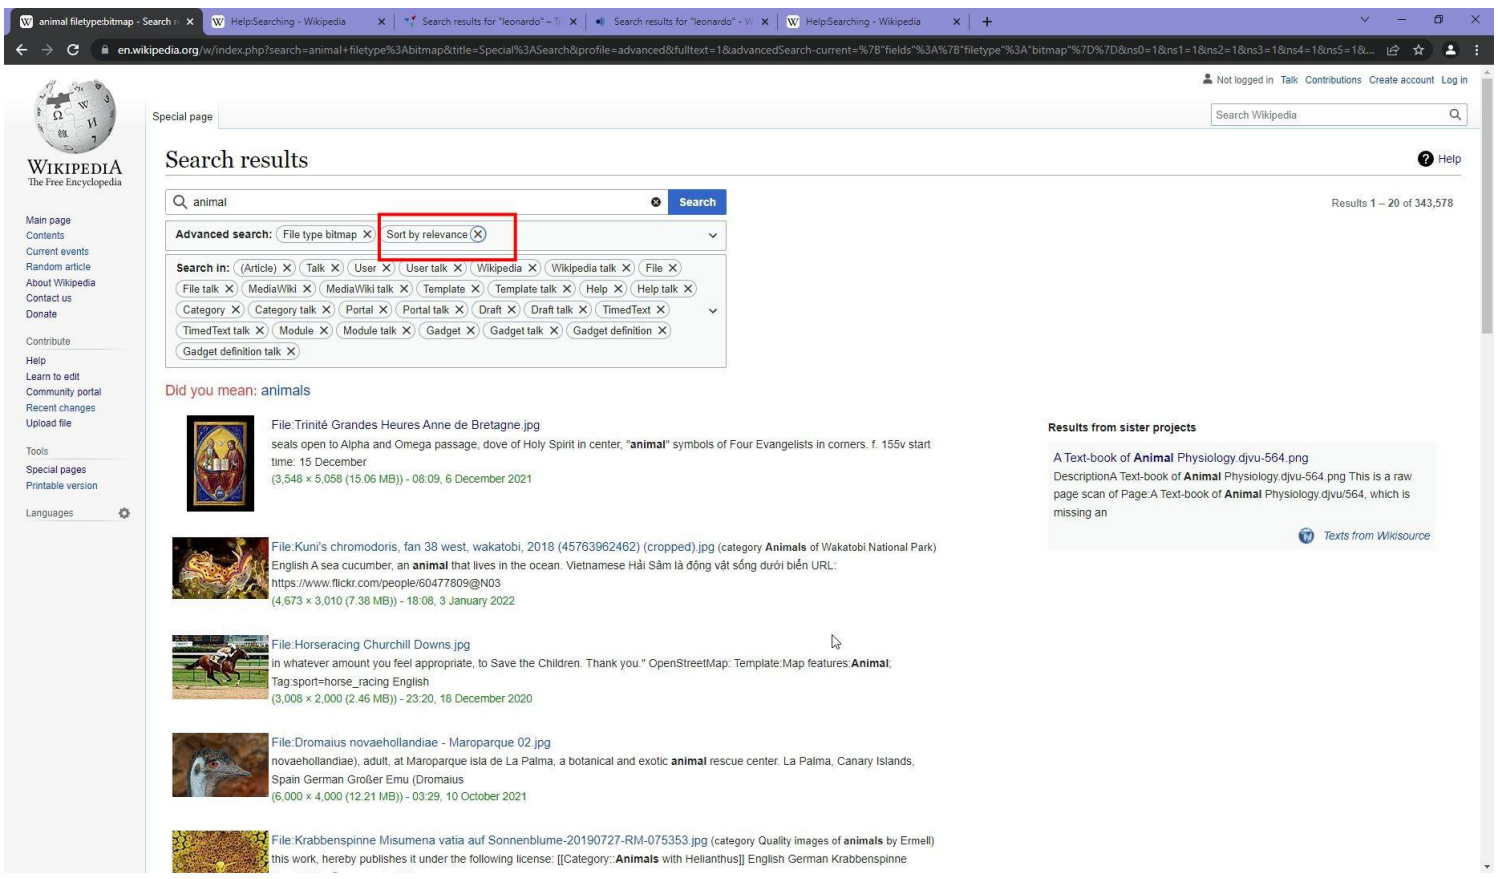
When I search file type mp3 without any search text I can see mp3 search results.

00:49:11 | Screenshot • Concern



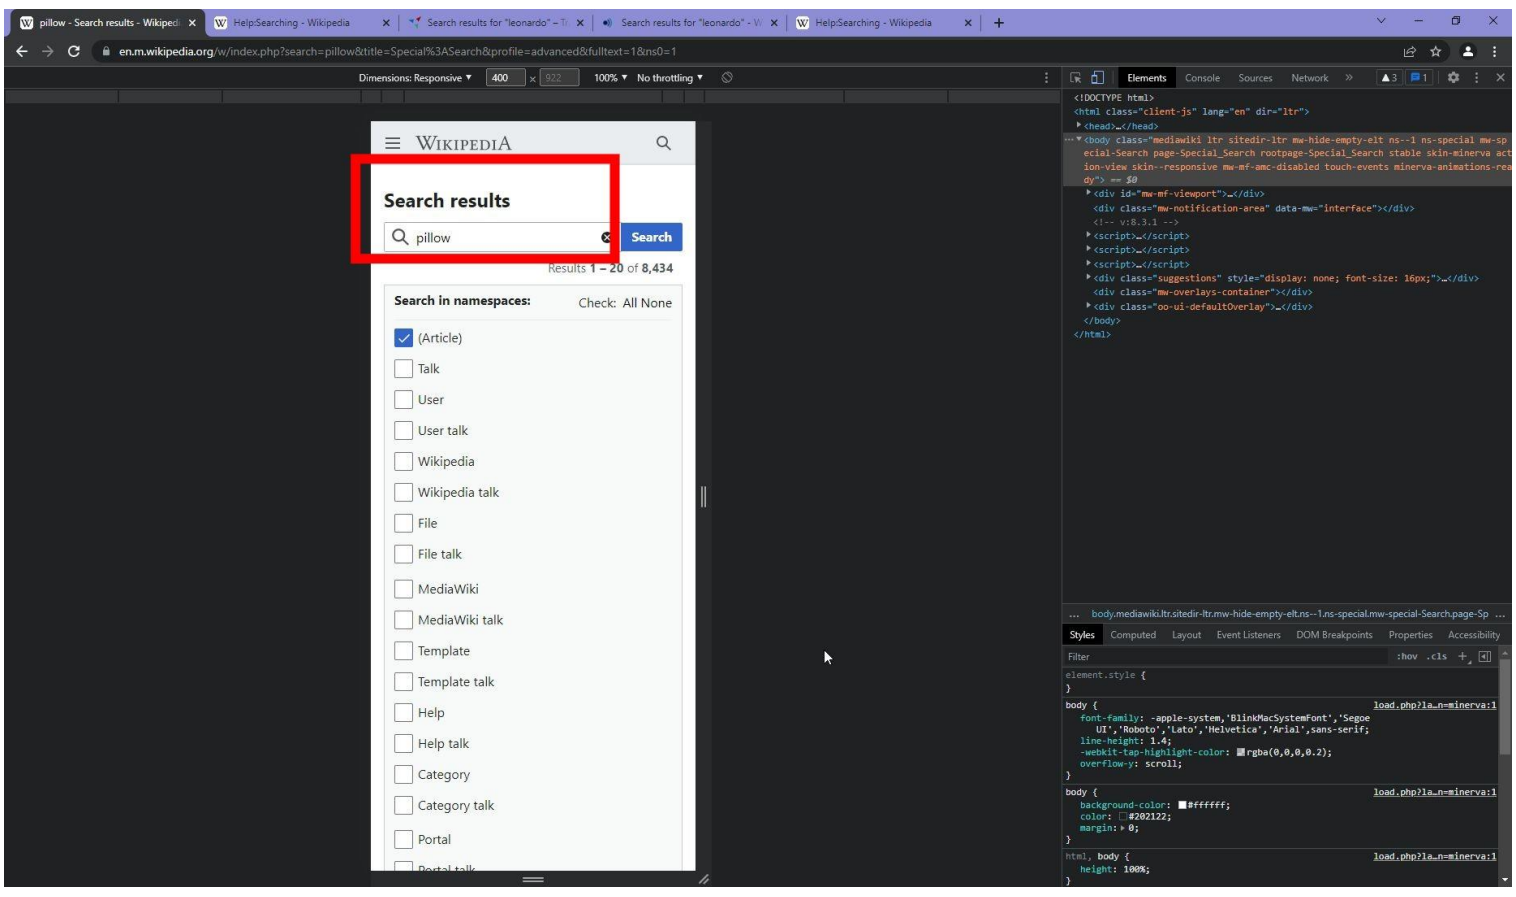
When I click the Special Page its refreshing the page. Why?

00:51:34 | Screenshot • Concern



When I click the Sort by Relevance cancel button its not working. Why its has cancel option?

01:12:37 | Screenshot • Comment



There is no advance search options in mobile view.
